

102.105 – SUSTAINABLE DESIGN GUIDELINE**PART 1 - INTRODUCTION****1.01 GENERAL**

- A. BJC HealthCare is committed to being a good steward of the environment and continuously strives to protect our natural resources, reduce waste, and prevent pollution. We continue to review, change, and develop processes that will lessen BJC's impact on the environment. Through education and guidance, our employees, patients, and communities will benefit from a more sustainable future and cleaner planet.

PART 2 - GUIDELINE**2.01 APPLICATION OF SUSTAINABLE DESIGN PRINCIPLES**

- A. The determination of the level of sustainable design sought on a project will be determined by BJC on a project by project basis. It should be noted that some sustainable materials and practices have in recent years become common practice in the industry and may be required through these standards even if a sustainable goal is not specifically targeted. In most instances, sustainable design requirements will be identified by BJC prior to engaging professional design services.

PART 3 - DOCUMENTATION – Not used.

PART 4 - SUPPORTING INFORMATION – Not used.
