In a world where there’s not enough time in the day to be sick, we have the cure. Daytime, evenings and weekends, we offer same-day, walk-in convenient care so you can get back to feeling better.

Your cost will generally be less than it would be for an Urgent Care visit, and will cost about the same as a visit to your primary care doctor.

We also offer on-demand video visits through our Virtual Care Center. Our dedicated team of providers are available seven days a week from 7 a.m. to 7 p.m. To access this service, register for a MyChart account by visiting mypatientchart.org and select “**Sign Up Now.**”

Our primary care physicians also offer same-day, virtual or in-person visits. Call **314-273-8888** to schedule an appointment.

What’s the difference?

Medical Group

Where should I go when I need treatment quickly?

For minor illnesses or injuries, contact your primary care physician first. While Convenient Care, Urgent Care, ER and On-demand Virtual Visits aren't meant to replace visits to your doctor, they are there when you need to see someone during off hours, weekends, or more quickly than going to your physician. Here are some guidelines on where to go.

CONVENIENT CARE

Walk in
Wait - tends to be short
Cost \$
Hours - extended hours

- allergies
- insect bites
- coughs, colds, flu and fever
- earaches
- urinary problems
- sore throats and strep or mono
- eye irritation
- mild skin conditions and rashes

- minor burns
- nose bleeds
- sports physicals, blood pressure checks, and limited immunizations
- sprains and strains
- simple cuts and puncture wounds that may require sutures
- mild respiratory infections
- mild to moderate asthma symptoms

URGENT CARE

Walk in
Wait - tends to be short
Cost \$\$
Hours - extended hours

An Urgent Care can address more serious illnesses that are not life threatening, and can perform X-rays and some lab tests.

An Urgent Care can treat all of the same things listed under Convenient Care, plus:

- possible broken bones
- foreign body in eye
- open wound
- suturing

EMERGENCY ROOM

Walk in
Wait - depending on your condition, there may be a longer wait
Cost \$\$\$\$
Hours - open around the clock

When the condition is life-threatening, such as a **heart attack, stroke** or when someone is **unresponsive**, call 911 immediately. Use an ER for:

- trouble breathing
- chest pain
- severe allergic reactions

- severe pain
- serious injury
- sudden vision impairment
- broken bones visible through the skin
- severe burns
- fainting
- poisoning
- rapid heartbeat

VIRTUAL VISITS

On-demand, same day care without leaving home
Wait - 15 minutes to 1 hr
Cost \$
Hours: 7am - 7pm daily
Available to MyChart users 12+

Our Virtual Care team provides quick, convenient care through an e-visit or video visit to evaluate your symptoms.

Learn more about virtual care at bjc.org/virtualcare.

Available for common conditions including:

- animal / insect bites
- cold sores
- COVID-19 symptoms
- earache
- head lice
- rash
- red / pink eye
