St. Louis, MO 63108

Dear Rich,

Thank you, and everyone at BJC HealthCare, for supporting St. Louis Children's Hospital and for standing alongside us as *Guardians of Childhood!* Your generous gift of \$50,000, made in January 2019 and given in recognition of Lee Fetter's sixteen years of dedicated service to BJC and St. Louis Children's Hospital will establish the Lee and Barbara Fetter Lectureship.

The Fetter Lectureship will be held annually and provide students, residents, fellows, faculty and staff with the benefit of formally exchanging ideas with world-renowned experts aligned with the mission of the Children's Discovery Institute of St. Louis Children's Hospital and Washington University School of Medicine. Lectureships allow our amazing medial team the opportunity to gain knowledge that will accelerate scientific discoveries to develop improved, highly-personalized treatments for rare and devastating pediatric conditions. Through this collegiality our hospital will be able to better provide sick children with the most leading-edge care available—delivered in a warm and supportive environment that families can't find anywhere else.

Rich, philanthropic investments from BJC keep us laser-focused on our mission to “do what's right for kids”. Thank you for your faith and trust in our ability to help sick children and their families.

With deep appreciation,

A handwritten signature in blue ink, appearing to read "Malcolm E. Berry".

Malcolm E. Berry
Chief Development Officer
St. Louis Children's Hospital Foundation

Rich - what a wonderful way to honor Lee & Barb - Thank you!
This gift also leveraged an additional \$75K to fully capitalize the lectureship.

Handwritten initials in blue ink, possibly "MB".

No goods or services were received in exchange for this gift to
St. Louis Children's Hospital Foundation (EIN 43-1626863). Please keep this letter as your receipt.
